

Financial supports for Live Events, Live Entertainment, Arts Industry, and Radio/Television

City of Edmonton Organization Business Grants

Does your organization support local businesses and our local economy? You may be eligible for one of the Business Association grants. These grants are for business associations, organizations and groups and are intended to support local economic development and help businesses recover from COVID-19. Matching grants can be used to support short term needs related to recovery as well as longer term initiatives related to diversification of the local economy.

Funding under the Business Association stream will be managed to ensure funding is available over the course of the grant. Applications are reviewed as they are received.

Business Association Stream funding will provide up to \$75,000 in matching grants to support the immediate needs and longer term recovery initiatives.
